JOIN US FOR A RARE EVENING OF FILM AND STORY

Joanna Macy speaks about her experience planting an Earth Treasure Vase at the Tritium Facility at Lawrence Lab, UC Berkeley, as well as discusses The Great Turning and Nuclear Guardianship.

The screening will be followed by refreshments and dialogue with project founder, Cynthia Jurs who will share about current projects underway in Liberia, South Africa, Democratic Republic of Congo and Australia.

From Hiroshima to Liberia, from the source of the Ganges to the source of the Amazon, and from Colombia's 'Heart of the World' to Arctic Alaska, Earth Treasure Vases have been ceremonially planted in collaboration with wise elders and young activists dedicated to bringing healing and protection to our planet.
